

CS: Lagged for S148, sick

The diagram illustrates a network of 15 personality traits: assertive, anxious, intellectual curiosity, trust, respect, sick, sociability, angry, organized, responsible, compassionate, aesthetic sensitivity, energy, productive, and creative imagination. The nodes are interconnected by a dense web of arrows. Solid purple arrows indicate significant correlations, while dashed light blue arrows indicate non-significant ones. Self-loops are present on 'anxious', 'respect', and 'depressed'.

A network diagram illustrating the relationships between 15 personality traits. The traits are arranged in a circular pattern, each enclosed in a circle. The connections between these traits are represented by lines of varying thickness and style (solid vs. dashed). The traits are: assertive, responsible, angry, productive, respect, trust, creative imagination, sociability, aesthetic sensitivity, energy, sick, compassion, intellectual curiosity, and anxious. The 'sick' node is white, while the others are purple or light blue. The diagram shows a complex web of interconnections, with some traits having more prominent links than others.
