

CS: Lagged for S76, tired

Diagram illustrating a network of personality traits and their relationships. The traits are represented as nodes in a circular arrangement, with arrows indicating the direction and strength of the relationships. The traits shown are:

- respect
- compassion
- intellectual curiosity
- depressed
- assertive
- productive
- sociability
- creative imagination
- responsible
- anxious
- emotional volatility
- trust
- energy
- organized
- angry
- tired

The diagram shows a complex web of interactions, with many traits having multiple incoming and outgoing connections. The 'tired' node is highlighted in white, indicating its central role in the network.
