

CS: Lagged for S195, AnxSWk

The diagram illustrates a network of relationships between 15 variables, represented by circles. The variables are: creative imagination, aesthetic sensitivity, sociability, anxious, depressed, assertive, energy, productive, intellectual curiosity, responsible, trust, compassion, organized, emotional volatility, and angry. The relationships are indicated by arrows: solid purple arrows for direct paths, dashed purple arrows for indirect paths, and curved purple arrows for self-loops. The variables are arranged in a circular pattern, with 'anxious' and 'angry' highlighted in light purple, and 'anxious school' in white. The title 'CS: Lagged for S195, AnxSWk' is positioned at the top left.

The diagram illustrates a network of 15 personality traits, each represented by a circular node. The nodes are interconnected by a series of lines, representing relationships between the traits. The nodes are arranged in a circular pattern, and the connections are represented by solid and dashed lines. The nodes are: creative imagination, organized, energy, respect, compassion, assertive, sociability, depressed, aesthetic sensitivity, trust, angry, intellectual curiosity, productive, anxious, and anxious school. The connections represent relationships between these traits.
