

The diagram illustrates a network of personality traits and their interrelationships. The nodes are represented by circles, with colors indicating their status: dark purple for positive traits, light purple for negative traits, and white for a neutral or central trait. The connections are as follows:

- Positive Correlations (Solid Purple Arrows):**
 - trust is positively correlated with responsible, organized, respect, assertive, creative imagination, sociability, and energy.
 - respect is positively correlated with intellectual curiosity, productive, aesthetic sensitivity, and compassion.
 - assertive is positively correlated with creative imagination and sociability.
 - creative imagination is positively correlated with sociability and energy.
 - sociability is positively correlated with compassion and energy.
 - energy is positively correlated with emotional volatility.
 - angry is positively correlated with depressed and anxious.
 - depressed is positively correlated with anxious.
 - anxious is positively correlated with emotional volatility.
 - emotional volatility is positively correlated with sick.
 - sick is positively correlated with energy.
 - compassion is positively correlated with aesthetic sensitivity and productive.
 - aesthetic sensitivity is positively correlated with productive.
 - productive is positively correlated with intellectual curiosity.
 - intellectual curiosity is positively correlated with organized.
 - organized is positively correlated with responsible.
- Negative Correlations (Dashed Light Blue Arrows):**
 - trust is negatively correlated with angry, depressed, and anxious.
 - respect is negatively correlated with assertive, creative imagination, and sociability.
 - assertive is negatively correlated with respect and creative imagination.
 - creative imagination is negatively correlated with respect and assertive.
 - sociability is negatively correlated with respect and assertive.
 - energy is negatively correlated with respect and assertive.
 - angry is negatively correlated with trust and depressed.
 - depressed is negatively correlated with trust and anxious.
 - anxious is negatively correlated with trust and emotional volatility.
 - emotional volatility is negatively correlated with trust and sick.
 - sick is negatively correlated with trust and energy.
 - compassion is negatively correlated with respect and aesthetic sensitivity.
 - aesthetic sensitivity is negatively correlated with respect and productive.
 - productive is negatively correlated with respect and intellectual curiosity.
 - intellectual curiosity is negatively correlated with organized.
 - organized is negatively correlated with responsible.

A network diagram illustrating the relationships between 15 personality traits. The traits are arranged in a circular layout, and their connections are represented by lines of varying thickness and style (solid, dashed, thick solid). The traits are color-coded: most are purple, but 'emotional volatility', 'depressed', 'anxious', and 'sick' are light purple, and 'sick' is white.

The traits and their connections are as follows:

- responsible** (purple) is connected to **productive** (purple) by a solid line, to **emotional volatility** (light purple) by a solid line, and to **trust** (purple) by a dashed line.
- productive** (purple) is connected to **organized** (purple) by a solid line, to **creative imagination** (purple) by a solid line, and to **emotional volatility** (light purple) by a dashed line.
- organized** (purple) is connected to **energy** (purple) by a solid line.
- energy** (purple) is connected to **anxious** (light purple) by a solid line, to **creative imagination** (purple) by a solid line, and to **intellectual curiosity** (purple) by a dashed line.
- anxious** (light purple) is connected to **sick** (white) by a solid line, to **creative imagination** (purple) by a dashed line, and to **intellectual curiosity** (purple) by a dashed line.
- sick** (white) is connected to **assertive** (purple) by a solid line, to **creative imagination** (purple) by a dashed line, and to **intellectual curiosity** (purple) by a dashed line.
- assertive** (purple) is connected to **aesthetic sensitivity** (purple) by a solid line, to **respect** (purple) by a solid line, and to **intellectual curiosity** (purple) by a solid line.
- aesthetic sensitivity** (purple) is connected to **respect** (purple) by a solid line.
- respect** (purple) is connected to **compassion** (purple) by a solid line, to **depressed** (light purple) by a solid line, and to **intellectual curiosity** (purple) by a solid line.
- compassion** (purple) is connected to **trust** (purple) by a dashed line.
- trust** (purple) is connected to **emotional volatility** (light purple) by a solid line, to **depressed** (light purple) by a solid line, and to **intellectual curiosity** (purple) by a solid line.
- emotional volatility** (light purple) is connected to **productive** (purple) by a dashed line, to **depressed** (light purple) by a solid line, and to **intellectual curiosity** (purple) by a solid line.
- depressed** (light purple) is connected to **intellectual curiosity** (purple) by a solid line.
- intellectual curiosity** (purple) is connected to **creative imagination** (purple) by a solid line, to **sociability** (purple) by a solid line, and to **assertive** (purple) by a solid line.
- sociability** (purple) is connected to **assertive** (purple) by a solid line.
- creative imagination** (purple) is connected to **energy** (purple) by a solid line, to **anxious** (light purple) by a dashed line, and to **sick** (white) by a dashed line.
